KEY ACHIEVEMENTS

- **Safety Protocols Enhancement**
  Achieved 98% efficiency in preventive maintenance, enhancing safety protocols during overhauls of critical systems.
- **Equipment Maintenance Optimization**
  Implemented rigorous maintenance schedules for 100 compressor systems, maximizing operational reliability and uptime.
- **Safety Leadership Improvement**
  Led safety drills improving emergency response readiness by 40% for crews during critical operational phases.

SUMMARY

Operations Technician professional with over 20 years of experience in offshore operations and equipment maintenance, expert in troubleshooting mechanical systems and monitoring equipment performance. My key achievements include maintaining a 98% equipment efficiency rate through strategic preventive maintenance programs and significantly reducing downtime by implementing timely repairs and innovative diagnostic methods. Seeking an Operations Technician position at ExxonMobil, where my mechanical expertise and operational insights are brought to support your mission of leading energy innovations that advance modern living and contribute to a net-zero future.

PROFESSIONAL EXPERIENCE

Chevron — TAKULA FIELD BLOCK 0

Solar Turbines, Rolls-Royce, and Siemens Compressors Technician — 01/2021 - 09/2025

- Installed, commissioned, and calibrated over [XX] centrifugal and axial compressors integrated with gas turbines and other power generation systems.
- Performed maintenance and repair, including disassembly, inspection, and reassembly of [XX] compressor components on Solar Turbines, reducing downtime by [X]% through scheduled and emergency interventions.
- Diagnosed performance issues in compressors using vibration analysis and thermography on [XX] units, improving reliability.
- Sustained accurate service logs, inspection reports, and compliance records for [XX] compressor systems, ensuring to OEM Compliance, API Standards, and ISO 9001 safety protocols. Used E-ONE and CMMS platforms to track work orders and equipment history.

Chevron — FPSO LPG SANHA BLK0

Mechanical Technician — 05/2012 - 12/2020

- Identified and resolved over [XX] mechanical failures using advanced diagnostic tools and hands-on inspections at Chevron, enhancing operational efficiency.
- Executed repairs on critical components, such as engines and hydraulics, across [XX] machines, significantly increasing uptime.
- Performed preventive maintenance on [XXX] rotating equipment units, including turbines, compressors, pumps, and generators, during scheduled routines and shutdown maintenance windows. Participated in Turnaround Projects, improving system reliability and uptime.
- Documented service reports, parts usage, and maintenance schedules to ensure accurate record-keeping and scheduling.
- Increased operational efficiency by 98% by maintaining machinery per OEM guidelines, ensuring compliance with standards.
- Led and managed [X] safety drills and emergency responses as part of the Emergency Response Team (ERT) and CPAT, improving onsite risk management.

SOFT SKILLS

Creativity · Continuous Learning · Adaptability · Customer Service · Safety Leadership · Teamwork · Problem Solving · Adaptability · Emergency Response · Attention to Detail · Time Management

PROFESSIONAL EXPERIENCE

MI-SWACO BLOCK 17
Drilling Solid Control Technician 01/2005 - 12/2009

- Maintained operation of 5 solids control equipment types Including shale shakers, desanders, desilters, centrifuges, and mud cleaners, ensuring continuous drilling fluid processing and system efficiency.
- Monitored and optimized drilling fluid properties to maintain viscosity and density within [X]% of target specifications.
- Achieved ${XX} in cost savings by ensuring 100% environmental compliance through proper waste disposal strategies.
- Reduced downtime by [X]% through regular troubleshooting and maintenance of solids control equipment.
- Increased safety compliance by {XX%} by implementing rigorous PTW procedures for equipment interventions.
- Prevented repair costs of {$XXk} by extracting [XX] harmful solids, safeguarding solids control machinery.

Transocean Drilling Company OFFSHORE
Assistant Driller Trainee 09/2004 - 12/2005

- Collaborated to ensure safe rig operations by understanding and supporting maintenance of [XX] drilling equipment components such as top drives and mud pumps.
- Assisted in monitoring critical drilling metrics, including weight on bit and rate of penetration and mud flow, ensuring effective operation across [XX] drilling phases.
- Trained on emergency procedures and hazard identification to uphold safety standards for a crew of [XX] personnel.
- Supported and contributed to the development of daily recording of drilling data and equipment status, ensuring accurate reporting for [XX] crew member activities.
- Worked closely with a team of [XX] rig workers including roughnecks and pump men to maintain seamless drilling operations.

EDUCATION

Rui Barbosa Institute Brazil
MBA in Safety Engineering and Human Factors 03/2024 - 07/2025

University Oscar Ribas Luanda, Angola
Bachelor of Management and Administration 02/2012 - 10/2016

Industrial Institute of Benguela Benguela, Angola
High School of Mechanic 02/1998 - 12/2001
